

MEET SMART, MEET SAFE

# MARRIOTT MEETINGS + EVENTS

Marriott INTERNATIONAL

COMMITMENT TO CLEAN

At the Renaissance Amsterdam Hotel, we are deploying scientifically supported practices and innovations that tackle the main ways that COVID-19 is transmitted:

## CONTACT

We are moving from high-touch to touchless through technology, space design, meeting set-up + catering.

## SURFACE

We are introducing deeper and more frequent cleanings, with extra attention given to high-traffic areas.

We believe that travel connects us to each other, widens our perspective, enriches us and inspires us.

We will travel again soon.

And, when you and your attendees are ready: We are ready to welcome you.

## GUEST ROOMS

### A SAFE SANCTUARY

Deep cleaning each guest room between guests

Reducing in-stay housekeeping – the only person in your room is you

Utilizing contactless mobile key and guest requests via Marriott Bonvoy App

Offering sanitization kits for guest use

## MEETING + EVENT SPACES

### FROM HIGH-TOUCH TO TOUCHLESS

Reducing seating capacity by at least 50%

Consulting with each meeting planner to review and align on expected social distancing practices

Equipping associates with required personal protective equipment, including masks for all guest-facing associates

Leveraging technology to reduce contact in key areas: Mobile check-in | event registration | attendee badging

Customizing meeting sets for each event to minimize contact

Spacing furniture in every space to provide a minimum of 1.5 meter of social distance between attendees and, where possible, utilizing outdoor spaces

Enabling live/virtual hybrid meetings through live-streaming capabilities

### DEEPER, MORE FREQUENT CLEANINGS

Enhancing cleaning protocols to disinfect every meeting space

Sanitizing restrooms as often as every hour

Disinfecting frequently touched items such as elevator buttons, escalator and stair handrails and door knobs as often as every hour

Providing hand sanitizer stations throughout the meeting spaces

## MEALS + BREAKS

### NOURISHING THE 'NEW NORMAL'

Setting meals and breaks in spaces reserved for the specific event (i.e., no mingling with other event attendees)

Offering a wide variety of hygienic F&B options tailored to group size, including: Grab & Go | canned & bottled beverages | plated service

Redesigning F&B station set-ups to include protective plexiglass screens and to maintain appropriate distancing

Serving coffee breaks staffed by associates or providing pre-packaged coffee break and condiment options for attendees

Reducing or removing non-essential items, including linens, pre-set plates, glassware and chargers, décor and other non-essential surfaces
